

Rivet 90

NONIONIC SURFACTANT

Higher quality, cost effective surfactant.

HOW IT WORKS

Rivet 90 is the superior nonionic surfactant on the market with class leading performance in numerous different applications when applied with defoliants, herbicides, insecticides, and fungicides. Rivet 90 reduces surface tension, enabling your spray droplets to spread out over the entire surface of the plant.

ADVANTAGES

Rivet 90 slows the rate of evaporation and protects from environmental degradation, causing greater percentage of chemical to successfully make it to the desired target.

APPLICATION

Recommended rate is 1-2 quarts per 100 gallons of water. See product label for complete usage rates.

-  Adheres water droplets to plants
-  Reduces surface tension
-  Protects from environmental degradation
