

# COMBO 7

## Influence Spray Aid with Low Odor Technology

### GENERAL INFORMATION

Combo 7 is a nonionic, low foaming penetrant/surfactant, which may be used to enhance the activity and effectiveness of many agricultural and industrial chemicals. When used according to label directions it will provide more uniform coverage of spray solutions by reducing surface tension and aid in penetration. The degree of drift hazard varies with the type of pesticide and application conditions. Read and follow all label directions when applying pesticides. Combo 7 may be used to acidify some spray solutions, thereby preventing alkaline hydrolysis of pesticides that are sensitive to high pH. Combo 7 will also show drift control properties by producing a more uniform spray pattern and improving deposition. The product will retard, but not eliminate drift.

### HANDLING AND STORAGE

Harmful or fatal if swallowed. Corrosive, causes eye and skin damage. Do not get in eyes, on skin, or on clothing. Wear eye protection and chemical resistant gloves. Consult the product MSDS for appropriate personal protective equipment. Avoid breathing vapors. Do not contaminate water, food or feed by improper storage or disposal. NOTE: Do not allow this product to contaminate water or soil by cleaning of equipment or disposal of wastes. The wastes resulting from the use of this product as an adjuvant in a spray mixture containing pesticides should be disposed of by use according to the label instructions and applied to the target area. Containers: Empty containers may contain small amounts of residue (vapors/liquid) and can be hazardous. Observe all label precautions. Containers should be triple rinsed (or equivalent) and then offered for recycling; or punctured and disposed of in a sanitary landfill or by incineration. If permitted by state and local authorities a triple rinsed container may be burned on site. If burned, stay out of the smoke.

**DANGER: CAUSES SEVERE  
BURNS AND EYE DAMAGE**

### DIRECTIONS FOR USE

Combo 7 may be used on a wide variety of crops including; fruits, vegetable row crops, citrus, small grains, forage crops, vine crops, or on non-croplands; such as forestry areas (site preparation and release), industrial sites (storage areas, plant sites, and other similar areas including governmental and private lands), grasslands (including pastures, rangelands and fence rows), rights-of-ways (utility, railroad and roadsides), turf (golf courses, parks and sod farms), aquatics, and ornamentals (container, field or greenhouse). Some pesticides have stated adjuvant use rates. In all cases, the specific pesticide manufacturer's label should be consulted regarding adjuvant use recommendations. Do not add adjuvant to a level that would exceed 5% of the finished spray volume unless otherwise specified by the pesticide label.

Combo 7 is compatible with most pesticide formulations including emulsifiable concentrates, water-soluble packs, flowables and wettable powders. Applications may be made by ground or air.

### FIRST AID

Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.

If Swallowed: Have person sip a glass of water if able to swallow. Do not induce vomiting, unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye. Get medical advice/attention if you feel unwell. Immediately call POISON CONTROL CENTER 800-222-1222.

Seller makes no warranty of fitness or merchantability. Buyer agrees that sellers maximum liability shall not exceed the purchase price of this product.

### NET CONTENTS:

2.5 U.S. GALLONS (9.46 L)

### RATE OF Combo 7

- Non-Crop Sites: 1 to 8 pts. per 100 gal. (1 to 6 fl. oz. per 5 gal.) of spray mixture.
- Herbicides, Defoliants, Desiccants: 1 to 4 pts. per 100 gal. of spray mixture when used as a surfactant/penetrant.
- Insecticides, Fungicides, Acaricides, Plant Growth Regulators: 1/2 to 2 pts. per 100 gal. of spray mixture.
- Turf and Ornamental: 1 to 4 pts. per 100 gal. (1 to 3 fl. oz. per 5 gal.) of spray mixture.

### Acidifying Agent

pH 8.0 = 8-16 oz/100 gal. of spray solution  
pH 6.5-8.0 = 4-8 oz/100 gal. of spray solution

NOTE: Combo 7 is an acidifier and may physically or chemically incompatible with alkaline/basic spray ingredients. It is recommended that a "jar test" be performed prior to the actual application.

Important: This product has demonstrated excellent plant safety; however, not all species and varieties have been tested. Before treating a large area, treat a small area and observe prior to full scale application.

### INGREDIENTS:

Phosphatidylcholine, organic and inorganic acids and alcohol alkoxylate.....80%  
Inert ingredients.....20%  
Total.....100%

All ingredients are exempt from tolerance requirements under 40 CFR 180.1001 (d).
