

CONDENSE +DRA ULTRA

Non AMS Water Conditioner, Humectant, Surfactant, Drift Retardant, and Defoamer

GENERAL INFORMATION

Condense+DRA Ultra is a new and improved formula, primarily engineered to meet your dicamba spraying needs. This new formula adds a higher performing surfactant, additional defoamer, and the industry's top rated DRA technology. It has an added benefit of being an ammonia free, complete water conditioner that chelates with all metallic ions, including calcium. Condense+DRA ULTRA creates an optimized sized spray droplet and slows down the evaporation for enhanced time for chemical uptake of active ingredients on target.
