

# CONDENSE<sup>+DRA/VRA</sup> COMPLETE

Non AMS Water Conditioner, Humectant, Surfactant, DRA, and VRA

## GENERAL INFORMATION

Condense Complete is a new and improved, all in one formula, primarily engineered to meet your dicamba spraying needs. This new formula adds a higher performing surfactant, additional defoamer, and the industries top rated Drift Reduction Agent (DRA) + Volatility Reduction Agent (VRA) technology. The VRA technology includes buffering agents, which aid in maintaining the right pH in the tank mix solution to reduce volatility. It also has the added benefit of being an ammonia free, complete water conditioner that chelates with all metallic ions, including calcium. Condense Complete creates an optimal sized spray droplet and slows down the evaporation to enhance the time for chemical uptake of active ingredients.

## HANDLING AND STORAGE

Harmful if inhaled or absorbed through skin. Avoid contact with skin, eyes, or clothing. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or smoking tobacco. Remove and wash contaminated clothing before reuse. Personal Protective Equipment: Wear chemical-resistant gloves, long-sleeved shirt and long pant, and shoes plus socks. **Protect from freezing/shake well before use.** Seller makes no warranty of fitness or merchantability. Buyer agrees that sellers maximum liability shall not exceed the purchase price of this product.

### WARNING: KEEP OUT OF REACH OF CHILDREN

May cause skin and eye irritation. Avoid eye and skin contact. Do not take internally.

## DIRECTIONS FOR USE

Mixing: All spray mixing and application equipment must be thoroughly cleaned before pesticides are applied.

1. Fill spray tank half full of water and start agitation.
2. Add desired rate of Condense Complete to water before adding pesticides.
3. Add pesticides as directed by the label, while maintaining agitation.

## FIRST AID

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.  
**IF INHALED:** Remove person to fresh air and keep comfortable for breathing.  
**IF IN EYES:** hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.  
**IF INGESTED:** call Poison Control Center or doctor immediately for treatment advice. Rinse mouth. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.  
**IF EXPOSED OR CONCERNED:** Get medical advice/attention if you feel unwell. Immediately call POISON CONTROL CENTER 800-222-1222.

## NET CONTENTS:

2.5 U.S. GALLONS (9.46 L)

## RATE OF CONDENSE+DRA ULTRA

Add 2-4 quarts of Condense Complete per 100 gallons of spray water (0.5 – 1.0% v/v) when used in place of ammonium sulfate.

For general use as a volatility reduction agent, use 2 gallons of Condense complete per 100 gallons of spray water (2.0% v/v).

For general use as a drift reduction agent, use 1-2 gallons of Condense complete per 100 gallons of spray water (1.0-2.0% v/v).

For use as a drift and volatility reduction agent for Dicamba tank mixes: Use Condense Complete at 2 gallons per 100 gallons for Engenia®, Tavium® Plus VaporGrip® Technology, or XtendiMax® Herbicide with VaporGrip® Technology spray mix (2.0% v/v).

Important: This product has demonstrated excellent plant safety; however, not all species and varieties have been tested. Before treating a large area, treat a small area and observe prior to full scale application.

**CONTAINS NO NPE OR APE**

## INGREDIENTS:

Principal Functioning Agents:  
Potassium hydroxide, Ethanoic acid, and Polyhydric alcohol..... 40.3%  
Ineffective as spray adjuvant.....59.7%  
Total.....100%

All ingredients are exempt from tolerance requirements under 40 CFR 180.1001(d)
