

Padlock

Next Generation Polymer Drift Control

GENERAL INFORMATION

Padlock is a next generation polymer drift control. Reduces drift while improving coverage with an optimum sized consistent and uniform droplet. Drastically increases percentage of spray landing on target, and reduces evaporation making chemical more available for uptake. This easy to use adjuvant can be a fully functioning nonionic surfactant with the complete benefits of improved drift control. Approved for Aquatic use.

HANDLING AND STORAGE

Harmful if inhaled or absorbed through skin. Avoid contact with skin, eyes, or clothing. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or smoking tobacco. Remove and wash contaminated clothing before reuse. Personal Protective Equipment: Wear chemical-resistant gloves, long-sleeved shirt and long pant, and shoes plus socks.

Seller makes no warranty of fitness or merchantability. Buyer agrees that sellers maximum liability shall not exceed the purchase price of this product.

Important: This product has demonstrated excellent plant safety; however, not all species and varieties have been tested. Before treating a large area, treat a small area and observe prior to full scale application.

DIRECTIONS FOR USE

Add Padlock first to agitating tank except when using dry flowables, then add after they are mixed into water solution.

For use with Herbicides (including desiccants), Insecticides and Fungicides. Prior to use, read all chemical label directions, and directions on this label. Padlock is not intended as a substitute for good agronomic practices, sound application techniques must be used when spraying.

FIRST AID

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

IF IN EYES: hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

IF EXPOSED OR CONCERNED: Get medical advice/attention if you feel unwell. Immediately call a POISON CONTROL CENTER: 800-222-1222.

CAUTION: KEEP OUT OF REACH OF CHILDREN

May cause skin and eye irritation. Avoid eye and skin contact. Do not take internally.

RATE OF PADLOCK

- Always use agitation when adding Padlock to the spray tank.
- As conditions change or pressure and nozzle adjustments occur use rates of Padlock will need to be adjusted.
- Normal range of use rates can adjust between 1-4 quarts per 100 gallons depending on wind speed, spray nozzles, sprayer pressure, and chemical being applied.

INGREDIENTS:

Polyvinyl Polymer (Polyacrylamide, non-reactive), Surfactant.....100%
Total.....100%

All ingredients are exempt from tolerance requirements under 40 CFR 180.1001(d)

CONTAINS NO NPE OR APE
