

Rivet 90

Nonionic Surfactant

GENERAL INFORMATION

Rivet 90 greatly improves the activity and effectiveness of agricultural chemicals. Rivet 90 is a nonionic penetrating surfactant designed to reduce the surface tension of spray allowing droplets to spread out and stick over a larger surface area of the leaf. Rivet 90 provides more uniform spray coverage and improves chemical absorption and efficacy while drastically reducing evaporation before plant uptake.

HANDLING AND STORAGE

Harmful if inhaled or absorbed through skin. Avoid contact with skin, eyes, or clothing. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or smoking tobacco. Remove and wash contaminated clothing before reuse. Personal Protective Equipment: Wear chemical-resistant gloves, long-sleeved shirt and long pant, and shoes plus socks.

Seller makes no warranty of fitness or merchantability. Buyer agrees that sellers maximum liability shall not exceed the purchase price of this product.

CAUTION: KEEP OUT OF REACH OF CHILDREN

May cause skin and eye irritation. Avoid eye and skin contact. Do not take internally.

DIRECTIONS FOR USE

In all cases, follow chemical manufacturer's label or speak with your certified crop advisor.

Rivet 90 is a non-foaming surfactant that is compatible with most chemical formulations including dry flowables. If tank mix concerns arise, perform a jar test.

FIRST AID

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

IF INHALED: move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

IF IN EYES: hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

IF INGESTED: call POISON CONTROL CENTER: 800-222-1222 or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **IF EXPOSED OR CONCERNED:** Get medical advice/attention if you feel unwell. Immediately call a POISON CONTROL CENTER.

RATE OF RIVET 90

- 1 to 2 quarts per 100 gallons of water
- Follow chemical label recommendations for nonionic surfactant

Important: This product has demonstrated excellent plant safety; however, not all species and varieties have been tested. Before treating a large area, treat a small area and observe prior to full scale application.

INGREDIENTS:

Principal Functioning Agents:

Nonionic Surfactant.....90%
Inert Composition.....10%
Total.....100%

All ingredients are exempt from tolerance requirements under 40 CFR 180.1001(d)

CONTAINS NO NPE OR APE
